---

**Pamir Telecom** presents feature-rich **VoIP Reseller** Services for businesses who would like to become mainstream [VoIP Provider](#)

without making huge investments in backbone operations, infrastructure, development and research. Any business entity, whether Internet Service Providers, Call Shop owners or Computer Networking Specialists, with existing client-relationships in the captive audience for VoIP services can join hands with

**Pamir Telecom**

and start reaping the benefits of selling VoIP-enabled services.

### Benefits of VoIP Reseller

- **Pamir Telecom** resellers may join our Virtual VoIP Venture program, a true Private Label option, to fully re-brand our services as their own.
- Our resellers have an option of getting their own branded SIP Proxy for custom configuration of devices.
- Our online tools allow custom mark-ups in prices and complete online billing and reporting in multiple currencies.
- Transparent access of 24x7x365 helpdesk to end-customers (white-label program).
- Fantastic, volume-based discounts. No commitments.
- Online reporting, account management and self-help tools for online, real-time operations.
- Almost instant activation of Reseller orders, 24x7x365 with live, human, online help.
- Entire spectrum of technical support with one agency, i.e., **Pamir Telecom**.

Note: If you have any more question you can contact us at any time.
